TO USE DEFLECT ALL-SEASON SURFACE REPELLENT

6040 DEFLECT All Season Surface Repellent creates a barrier between the surface and contaminants which can soil, stain and interfere with maximum performance and usability.

DEFLECT prevents the build-up of snow, slush, grass clippings, dirt and more.

Apply it to non-porous surfaces such as metal, vinyl, fiberglass, plastic, painted surfaces, Formica, enamel and linoleum.

It also prevents graffiti from penetrating surfaces to enable easy removal.

When used with 2150 NO MISCHIEF Graffiti Barrier to remove graffiti, there is no need to reapply for continued protection.

INDOORS

Indoors
