DEGREASERS

Whether you are degreasing a small engine or removing grease build-up on a drilling rig, we have the professional grade product for your needs.

Solvent Degreasers • Water-Soluble Degreasers • Safety Solvents • Heavy-Duty Foams • Tar Removers • VOC 50 state compliant

LUBRICANTS

We keep your machinery running smoothly with a full range of lubricating products with formulations offering temperature ranges from -40°F to +662°F.

Dry Moly Methylene Chloride-Free • Food Grade Semi-Synthetic • Copper Based • Copper-Moly Combo • Silicone • Silicone-Free • Molybdenum Disulfide • Graphite • NSF H1 • USDA Authorized

PENETRANTS

Need to free a corroded screw? Prevent rust? Keep mechanisms working without friction? We've got the penetrant!

Food Grade Oil • PTFE • Heavy-Duty • Light-Duty • Silicone-Free • PTFE + Moly • High Pressure • NSF H1 • USDA Authorized

GREASES

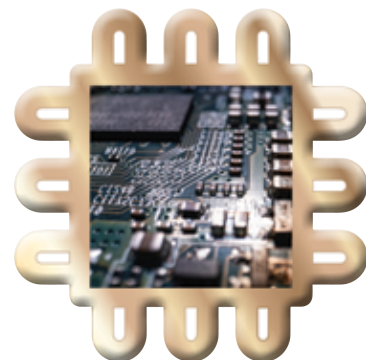

From multi-use greases to extreme condition grease to anti-seize lubricants, we have what you need with temperature ranges from -40°F to 2200°F. Packaging includes aerosols, tubes, pails and drums.

Calcium sulfonate • Bentone • Lithium Complex • Copper-based • NLGI Grade 2 • NLGI Grade 3 • NLGI GC-LB • ASTM D 4950 • NSF H1

CONTACT CLEANERS

Keep electronics and circuit boards clean with high performance cleaners, including ones which are VOC compliant in all 50 states.

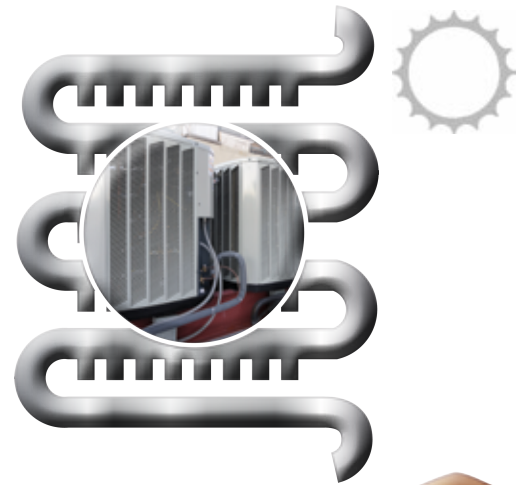

Fast Drying • Non-Conductive • High Dielectric • Low Odor • Plastic Safe

COIL CLEANERS / HVAC

Keep cooling systems running smoothly including air conditioners, central cooling systems, refrigeration equipment and auto air conditioners. Also available: an EPA registered product for HVAC applications.

Foaming Coil Cleaners • Evaporator/Condenser Cleaners • Evaporator Disinfectant

METAL + RUST

Protect metal parts from environmental factors to prevent rust and corrosion. If the surface is already rusted, we have the products to treat those rusted areas to prevent future rust from forming.

Metal Parts Protection • Galvanize Coating • Rust Converter • Cutting Fluids

FLEET MAINTENANCE

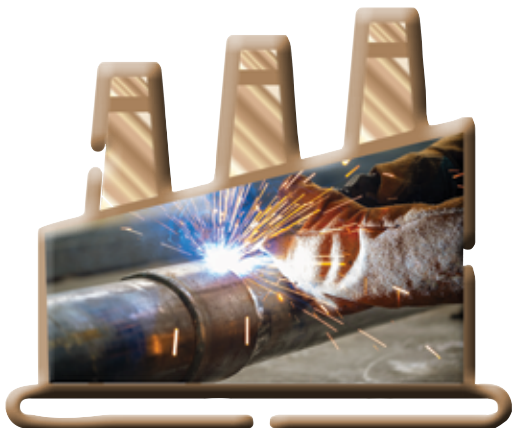

Stock the service department with products that address specific needs for service and detailing.

Interior Cleaning Products • Protective Coating • Air Conditioner Deodorizer • Tire Shine • Parts Cleaners • Polish • Battery Cleaners & Protectants • Degreasers

SPECIALTY

Having the right specialty product for the right job saves time and money. We offer a number of niche products to quickly address particular facility maintenance jobs.

Drain Maintenance • Surface Barriers • Belt Dressing • Paint Remover • Anti-Spatter • Tile Restorer • Insulation Spray • Heat Dissipating Spray • High Pressure Grease • White Grease • Sewer Compound • Lift Station

Production Capabilities: 158,000 square foot production floor

AEROSOL PRODUCTION:

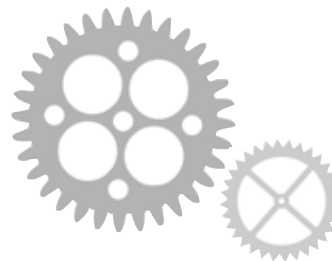

Three aerosol lines • Rotary line has two in-line gasser shakers for most effective CO2 filling • 1 ounce to 24 ounces • 100 - 5000 gallons per batch run • 3-piece cans & 2-piece DS can • Multiple tip and valve options

LIQUID FILL LINES:

Four liquid lines • 8 oz. bottles, pint bottle, quart bottles, 1 gallon jugs, 5&6 gallon pails, 55 gallon drums, totes • 110 to 5000 gallon batch range

HAND SANITIZER LINE:

500,000 units annual capacity • 4 ounce, 8 ounce, quarts, gallons

Private Label & Contract Filling

EXPERIENCED CHEMISTS

Our team of experienced chemists work with you to choose one of thousands of different formulas to best meet your needs. We can also customize formulas for a truly unique product.

REGULATORY DEPARTMENT

Our regulatory team assures your products comply with state and federal laws. Labeling is GHS compliant.

GRAPHIC ARTS DEPARTMENT

Our creative graphic arts department brings your private label product to visual life with your branding.
