

ALERT: PALLET PACKAGING

YOUR PALLET SHOULD LOOK LIKE THIS

Bill of lading

Number of skids for the order written with black marker on the stretch wrapping

Orange "DO NOT STACK" label on the stretch wrapping

If your pallet is not presented in this way, it is not in its original configuration and has been re-packaged by the freight company.

Do not sign off on it as it may contain damaged or missing product.

SUGGESTION: Invest in a rubber stamp stating "Conditionally Accepted Upon Count" for signing off on the delivery receipt. This will enable QuestSpecialty to have recourse with the freight company.
