BRITE SHINE STAINLESS STEEL CLEANER & POLISH WIPES are especially formulated to quickly clean and polish all stainless steel surfaces. They contain a unique citrus-based formulation that reduces oxidation and corrosion. Pleasant citrus smell.

This product removes hard water stains and deposits, grease smudges, food residue and fingerprint smudges from virtually any stainless steel surface. While cleaning this formula also brightens, polishes and protects the surface with a clear coating that acts as a protective shield.

This citrus-based formula can also be used to clean other surfaces such as wood, formica, ceramic and porcelain. Removes stains, polishes and brightens these surfaces to revitalize them and keep them looking great.
