

### PRECAUTIONARY STATEMENTS

#### Hazards to Humans & Domestic Animals

**CAUTION:** Contact with product may result in transient tingling and reddening of the skin. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

#### Environmental Hazards

This product is extremely toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of washwater or residue. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

#### Physical or Chemical Hazards

Do not apply this product in or on electrical equipment due to possibility of shock hazard.

#### READ THE LABEL FIRST!

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**General Information:** Hold container upright. Do not spray up into air. Apply to surfaces only as a spot and crack & crevice treatment. Hold approximately 12 inches from surface to be sprayed. Squeeze trigger to spray until surface is slightly moist but not to the point of runoff. Over application may cause damage. Test in an inconspicuous area before applying.

Do not allow children or pets to contact treated surfaces until spray has dried. Double Trouble keeps on killing **German Cockroaches** for up to 3 months after you spray. 9 months on non-porous surfaces; keeps on killing **Flies** for up to 3 months after you spray.

Double Trouble kills on contact. Contact kill gives you immediate results when spraying insects directly.

Double Trouble Insecticide is intended to be used in and around residences and their immediate surroundings such as (but not limited to): **garments, attics, armoires, armoires, basements, bedrooms, boats, baths, campers, carpets, car sleeping quarters, clothes storage, condominiums, decks, dens, driveways, garages, garages, homes, kitchens, laundries, living rooms, pantries, patios, pet sleeping areas, play rooms, porches, recreational vehicles, rooms, saunas, storage areas, sun rooms, utility rooms, and verandas.** Do not use in commercial food handling establishments, restaurants, or other places where food is commercially prepared or processed.

#### INDOORS:

**Cockroaches (Including Adult And Immature Stages Of Both Non-Resistant And Organophosphate And Carbamate Resistant Strains), Ants, Boxelder Bugs, Centipedes, Grackles, Dermestids, Fleas, Flies, Palmate Bugs, Silverfish, Sawbugs, Ticks and Warrantogs.** Control **German Cockroaches** for up to 3 months, 9 months on non-porous surfaces. Apply as a spot and crack & crevice treatment to areas where these pests crawl and hide, especially in hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside shelves, drawers, bookcases, and similar areas. For **Ticks**, spray on floors, under most, cover all food handling surfaces and over or remove of food and cooking utensils or

wash thoroughly after treatment. Exposed food should be covered or removed. Repeat as necessary but not more than once per week.

**Ants:** Spray on trails and around doors and windows and other places where ants enter the house.

**Carpenter Ants:** For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood through existing openings.

**Ticks (Including Ticks That May Cause Lyme Disease) and Fleas ON SURFACES:** Remove pet bedding and destroy or clean thoroughly. Spray pet resting quarters until moist. **Adult Fleas and Larvae** contacted by spray will be killed. Put fresh bedding down once spray has dried. Do not spray animals directly. For best results, pets should be treated with an appropriate flea and/or tick control product registered for use on pets before allowing them to enter the treated area. Spray rugs and carpets where infestations are bad. Bedside tables should be tested for staining in an inconspicuous area prior to use.

**Spiders:** Apply along and behind baseboards, to window and door frames, corners, pipes, storage facilities, attics, crawl spaces and other areas over which these pests may crawl.

**Centipedes, Ground Beetles, Pillbugs, Sowbugs, Scorpions and Ticks:** Apply around doors and windows and other places where these pests may enter premises. For **Ticks**, spray surfaces until moist. Treat baseboards, storage areas and other locations where these pests are found.

**FLYING INSECTS: Houseflies, Gnats, Mosquitoes and Small Flying Moths:** Spray localized resting areas, such as under eaves, porches, inside surfaces of window and door frames, surfaces around light fixtures and cords, railings, etc. and anywhere these insects may rest. Insects coming to rest on treated surfaces will be killed.

**HOUSE STABLES:** To control **Stable Flies, Horn Flies, Houseflies, Face Flies, Horse Flies, Deer Flies, Mosquitoes and Gnats**, apply thoroughly to surfaces until wet. Insects coming to rest on treated surfaces will be killed or repelled. Repeat treatment as necessary but not more than once per week. Do not spray animals or humans, or apply to animal feed or watering equipment.

**Control Stable Flies** for up to 4 months.

**PANTRY PESTS: Grain Beetles (Rusty Merchant and Saw-toothed), Flour Beetles (Red and Confused), Cigarette Moths, Cigarette Beetles, Cover Mites, Clater Flies, Dragstore Beetles, Elmleaf Beetles, Rice Weevils, Lesser Grain Borers, Spider Beetles, and Tobacco Moths:** Treat exposed stages. Remove all foodstuffs, utensils, and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow to dry prior to replacement of shelf paper, food, and utensils. Wash any exposed food handling surfaces and utensils before use.

**Carpenter Beetles (Black Furniture and Wood):** Spray on and under edges of floor coverings, under rugs and furniture and in closets or other locations where these insects are found.

**Washing Clothes Moths:** Use this product as a crack and crevice treatment in closets and other storage areas where these pests are found. This is an adjunct treatment and will not control moth larvae already on clothes. Do not apply to clothing.

**Bedbugs:** Remove linens and wash before reuse. Lightly spray mattresses, especially tufts, folds and edges. Apply to the interior of the frame. Allow to dry before remaking bed.

Also, treat your yard with a product registered for yard application. Remove all exposed food and cooking utensils. Cover all food handling surfaces and wash thoroughly after treatment and before use. Do not use on edible crops or fresh produce.

**OUTDOORS:** For outdoor use only as an aid in controlling these insects.

**For Control of ORNAMENTAL GARDEN INSECTS:** For use on roses, dahlias, clematis, and other ornamentals; to kill **Japanese Beetles** that by spray, as well as **Whiteflies, Aphids, Armyworms, Lace Bugs, Mealy Bugs, Exposed Thrips, Pavement Ants, Spiders, Spittle and Red Miles, Cover Mites and Leafminers.**

May also be used on other plants such as African violets, cacti, azaleas, begonia, ornamentals, clematis, dyanthemums, delphiniums, dogwood, English ivy, geraniums, lilies, geraniums, cross, grape vine, Kentia palm, laurel, marigolds, rhododendrons, rubber plants, succulents, stocks, wisteria, yucca, and zinnias.

When spraying plants, do not operate closer than 18 inches, the sweeping motion. Be cautious about wetting tender foliage, young plants and new growth. Do not spray plants when temperatures exceed 80° F. DO NOT apply to vegetable plants or other plants used for food. Spray insects directly whenever possible.

**FLYING INSECTS: Gnats, Mosquitoes, and Small Flying Moths:** Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray localized resting areas, such as under eaves, porches, surfaces around light fixtures and cords, railings, etc. where these insects may rest. Insects coming to rest on treated surfaces will be killed.

**Termites, Carpenter Ants and Carpenter Bees:** For localized control only, apply Double Trouble Insecticide to voids or channels in damaged wood of a structure, or to cracks, crevices, and spaces in and between wooden portions of a structure or between wood and the foundation, in locations vulnerable to attack such as crawl spaces.

For **Termites**, the purpose of such applications is to kill workers or winged forms which may be present in the treated areas at the time of application. Not recommended as sole protection against termites. For active infestations, get a professional inspection. Such applications are not substitutes for mechanical elimination, soil treatment or foundation treatment or are merely a supplement. For severe termite infestation, contact a professional pest control operator in your area.

**HOUSE PLANTS:** To control **Aphids, Japanese Beetles, Lace Bugs, Leafminers, Mealy Bugs, Mites, and Spider Mites** on house plants. Prior to using, remove plants from living and eating areas. Put in an area and likely to come in contact with pets, children or food. Plants can be returned to original location when leaves dry. Plants cannot be sprayed, washed or removed exposed food and food handling areas. Avoid spraying surrounding areas. Apply spray to upper and lower surfaces of foliage. Avoid wetting blossoms if possible. Repeat applications as necessary but not more than once per week.

**FOR CONTROL OF ORNAMENTAL GARDEN INSECTS:** For use on roses, dahlias, clematis, and other ornamentals; to kill **Japanese Beetles** that by spray, as well as **Whiteflies, Aphids, Armyworms, Lace Bugs, Mealy Bugs, Exposed Thrips, Pavement Ants, Spiders, Spittle and Red Miles, Cover Mites and Leafminers.**

May also be used on other plants such as African violets, cacti, azaleas, begonia, ornamentals, clematis, dyanthemums, delphiniums, dogwood, English ivy, geraniums, lilies, geraniums, cross, grape vine, Kentia palm, laurel, marigolds, rhododendrons, rubber plants, succulents, stocks, wisteria, yucca, and zinnias.

When spraying plants, do not operate closer than 18 inches, the sweeping motion. Be cautious about wetting tender foliage, young plants and new growth. Do not spray plants when temperatures exceed 80° F. DO NOT apply to vegetable plants or other plants used for food. Spray insects directly whenever possible.

**FLYING INSECTS: Gnats, Mosquitoes, and Small Flying Moths:** Spray outside surfaces of window and door frames and other areas where these pests may enter the home. P.O. Box 624 • Brenham, TX 77834 • 713.896.8188

### STORAGE AND DISPOSAL

**(Household / Residential Use) Storage:** Store in a cool, dry area inaccessible to children. Do not transport or store below 32° F (0° C). If freezing occurs, allow paper to thaw and shake well before using. Freezing does not adversely affect performance.

**Container Disposal:** Non-refillable container. If empty, do not reuse or refill this container. Place in trash or other for recycling if available. If **partly filled**, call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**(Commercial / Institutional / Industrial Use) Do not contaminate water, food or feed by storage or disposal.**

**Pesticide Storage:** Open dumping is prohibited. Store in original container in areas inaccessible to children.

**Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or residue is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**Container Disposal:** Non-refillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling or reconditioning (or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**HMS Ratings:** Health 1, Flammability 0, Reactivity 0, Personal 8.
