

FOAM PLUS™ Oven Cleaner

Corporate Chef Testimonial

I have been in the kitchen for a long time and have had to clean a lot of dirty, greasy kitchen equipment.

(QuestSpecialty's) Foam Plus Oven Cleaner is one of the best products that I have used.

There is nothing worse than trying to clean the greasy build-up on kitchen equipment. I have tried many products that just did not work. Foam Plus Oven Cleaner, on the other hand, was fantastic.

Spray it on, let it soak for a few minutes and the grease just wipes right off. I was very impressed the first time I used it and every time since. It is now a staple cleaner in our kitchen!

~ D.W, Corporate Chef

Don't clean that oven until I'm gone for the day ... oven cleaners smell awful!

No smell with this one ... we just finished cleaning it.

We had just finished showing a customer the effectiveness of FOAM PLUS on their oven when the supervisor walked into the kitchen. She said we needed to wait to clean the oven until she left for the day because of the terrible, lingering smell. Needless to say she was very surprised to know we had just finished cleaning the oven! FOAM PLUS leaves virtually no smell.

~ Distributor Sales Rep
