

BREACH

SUPER PENETRANT

Breaks up Rust

Quickly Loosens Frozen Bolts

Displaces Moisture

Extreme Capillary Action

Leaves Residual Protective Coating

5451 BREACH

12 - 16 oz cans/case

Breach is a penetrating lubricant that loosens fasteners or bolts that are stuck or frozen in place so they can be removed or separated. BREACH seeps into crevices or small spaces between threaded parts to release them. Displaces moisture and prevent corrosion between fasteners.
