SDS AND  
PRODUCT INFO

**AQUA-LUB** is a powerful, multiple-action protective shield against the harmful effects of moisture and corrosion. Loosens dirt and scale from corroded threads, tightly fitted parts, sliding and rotating parts, bolts, hinges and pins which have been "frozen" by corrosion. It protects electrical gear, metal and other surfaces from deterioration by displacing water and moisture and sealing all surfaces with a complete molecular film. It preserves equipment, reducing repair and maintenance costs. **NEVER BECOMES DRY, BRITTLE OR HARD.** Can be used on dry or wet surfaces.

#### **CONTAINS A RUST PREVENTATIVE THAT WILL PROTECT AGAINST RENEWED CORROSION**
