COBRA

QuestSpecialty Corporation

COBRA

Evaporator/Condenser Coil & Fin Cleaner

COBRA penetrates air conditioner evaporator/condenser coils and fins to remove all types of soils. The stream spray allows product to be dispersed deep into the fins of the coil. Upon contact with the coil surface, it begins to react, foam and flush soil to the surface. Evaporator coils need no rinsing if Cobra is applied in place to a functioning unit that produces moisture. The moisture produced will rinse product from contacted surfaces. Units that have been removed for repairs or do not produce moisture during operation require rinsing. Rinsing is also required on condenser coils. Also available in liquid formula.

- ❖ **541000001-20AR Cobra**
12 - 20 oz. cans per case, 15 oz. net weight.
- ❖ **660100001-41GL Cobra**
4 x 1 gallons, 5 or 6 gal. pails, 55 gal. drums.

Areas of Use:

*Air Conditioners Central Cooling Systems Homes
Auto Air Conditioners Hotels/Motels Office Buildings
Air Conditioner Services Auto Repair Services*

Features and Benefits:

Removes Grease, Oil & Water Deposits • Fast Acting
