SHINE ON

Tire Shine

SHINE ON gives dull, dry-looking tires new life. Leaves an invisible, wet-looking shine that lasts through multiple washes. Keeps new tires looking their best and rejuvenates older tires to a like-new, deep luster. So easy to apply, just spray on and walk away—no buffing required. Can sprays from any angle—even upside down. SHINE ON keeps tires looking blacker longer while preventing cracking, browning and premature aging.
